

## Brexit Working Group

The following statement was released today; Wednesday, 22 July 2020.

*AB MAURI UK&I has continued to maintain a large amount of activity within the previously established working group; focusing on the potential impact of Brexit on our business.*

*This working group is evaluating possible scenarios and potential solutions regarding all aspects of our business, to ensure we continue to provide our customers with the value adding technical solutions and fantastic customer service that they have come to expect.*

*Like many other businesses based in the UK, we are now waiting for the actual detail around any potential deal between the UK and EU. As the Government works through the negotiations with the EU and details emerge, we will respond quickly to fully evaluate solutions to protect our customers from potential supply interruption.*

*In light of the experiences and exposure faced by two previous Brexit attempts, plus numerous supply challenges brought by the recent COVID-19 pandemic, we are optimistic that we have a high level of competence and expertise to steer our business and valued customers through this latest trading period that coincides with a further Brexit deadline.*

*However, with this latest timescale coinciding with the forthcoming Christmas and New Year trading period; we would ask for your cooperation and assistance to manage the additional Brexit challenge that we are all facing.*

*If necessary, your account manager will be in contact with you to discuss your requirements in due course.*
